COVER IMAGE: “Sunflower” by CSI art student Grace Eakin

Mission Statement:
The College of Southern Idaho, a comprehensive community college, provides educational, social, cultural, economic, and workforce development opportunities that meet the diverse needs of the communities it serves. In this rapidly changing world, CSI prepares students to lead enriched, productive, and responsible lives in a global society.
Dear Friends,

The giant sunflower starts its journey as a small white seed. In the light of full sun, it grows steadily into a brilliant yellow, gold, orange, red and maroon flower, turning its face to follow the daylight and reaching as high as 15 feet tall. Supported by a sturdy stem, its enormous head blossoms with life-giving seeds; and each time a new seed is planted, the cycle is repeated.

Not confined to the realm of botany alone, this distinctive plant embodies the diversity of our educational system. From a historical and geographical perspective, the sunflower is native to the Central Americas, first domesticated in Mexico around 2600 BC. Curious anthropological facts include its symbolism as the solar deity for many indigenous peoples, such as the Aztecs and the Incas. Artist Vincent van Gogh painted the sunflower in many different forms, making its yellow spectrum his muse. In contrast, mathematician H. Vogel identified a model for the pattern of florets in the head of a sunflower, expressed in polar coordinates $r = c/\sqrt{n}$, $\theta = n \times 137.5^\circ$, where $\theta$ is the angle, $r$ is the radius or distance from the center, $n$ is the index number of the floret and $c$ is a constant scaling factor. Moreover, since the sunflower has such a variety of commercial uses, the fields of both business and political science have claimed it as their logo for “green” ideology.

Here in the Wood River Valley, we are touched by a rare quality of light, brilliant skies and full sunshine producing ideal growing conditions. In summer months, the giant sunflower is commonly spotted in gardens, along fences, or dotting open fields. With its tradition ancient, roots deep and lofty beauty inspiring, comparing the giant sunflower to higher education feels natural: the possibility of one student blossoming by turning toward the light. It all starts by planting the seed, nourishing growth, sharing the harvest, and beginning again.

Now is the time to plant the seed of lifelong learning. Experience what the summer sunshine unfolds.

Jude Hawkes
Blaine County Center Interim Director
GO TO COLLEGE AT THE CSI BLAINE COUNTY CENTER!
Work toward an associate’s degree. Prepare to transfer to a four-year institution. Accomplish classes for a second degree or a career change.

TO REGISTER FOR AN ACADEMIC CLASS,
complete 1. an application for admission (new students only) and 2. a course registration form. Students may apply and register online at www.csi.edu.

*TUITION: Summer tuition is $100/credit for both in-state and out-of-state students. Current high school students may enroll in college courses for a tuition of $65/credit. There is no charge for academic credit for students over the age of 60.

ACCOUNTING

ACCOUNTING 201 B01V – Introduction to Financial Accounting
This is an introduction to financial accounting and stresses the use of financial information in making investment and business decisions. The course covers the primary elements of the financial statements, fundamentals of accrual accounting, a study of internal control and cash safeguards, accounting for inventories and fixed assets, the presentation and use of the statement of cash flow, and the fundamentals of long-term liabilities. The course emphasizes the uses of accounting information rather than the preparation of financial statements. Prerequisite: MATH 108 or 123. Telecommunication class.
Instructor: Dennis Heiner
Mondays and Wednesdays June 7-July 30
6:30-9:50 p.m. Room 516
4 credits $400*

ALLIED HEALTH

ALLH 101 B03V – Medical Terminology
This course is designed to introduce the student to the fundamentals of medical terminology. It includes word structure of basic medical/surgical terms and procedures, body parts and organs, selected medical specialties, and commonly used medical abbreviations. Telecommunication class.

ECONOMICS

ECON 201 B01V – Principles of Macroeconomics
This course includes organization and operation of the American economy, supply and demand analysis, money and banking, employment and aggregate output, public finance, and economic growth. Telecommunication class.
Instructor: John Hurley
ENGLISH

ENGL 015 B01V – Basic English and Writing
This course is an introduction and review of basic skills and strategies needed for writing in college and the workplace, with emphasis on grammar and usage, sentence construction, and paragraph and essay development, preparing students for ENGL 090. Prerequisite: Placement test score and a departmental writing sample. Telecommunication class.

Instructor: John Hughes
Mon., Tues., Wed., Thurs. June 7-July 30
7:30-9:20 a.m. Room 516
4 credits $400*

ENGL 090 B01V – Developmental Composition
This course is a study and practice of the basic concepts of composition, including paragraph and essay construction. It introduces students to the composition process: prewriting, writing and revising. The course also emphasizes grammar, sentence mechanics, editing, and critical thinking skills. Prerequisite: ENGL 015 or equivalent placement test score and a department writing sample. Telecommunication class.

Instructor: Kory Lloyd
Mon., Tues., Wed., Thurs. June 7-July 30
7:30-8:50 a.m. Room 515
3 credits $300*

MATH 015 B01V – Prealgebra
This course emphasizes prealgebra concepts and is designed to equip students with skills necessary to be successful in Math 025, Beginning Algebra. A review of arithmetic operations with whole numbers, integers, and rational numbers integrating algebraic concepts such as vocabulary, simplifying variable expressions, solving linear equations, order of operations, exponents, radicals, ratios and percentages. Prerequisite: Placement test score. Telecommunication class.

Instructor: James Dawson, M.S.
Mondays, Wednesdays, Fridays June 7-July 30
2:00-3:50 p.m. Room 516
3 credits $300*

Section B02V
Instructor: Theresa Pham
Mon., Tues., Wed., Thurs. June 7-July 30
3:30-4:50 p.m. Room 515
3 credits $300*

MATH 025 – Beginning Algebra
This course is designed to develop basic algebra skills. It covers positive and negative integers, exponents, fractions, first-degree equations and inequalities in one variable, polynomials, evaluation of algebraic expressions, factoring, rational expressions, radicals, an introduction to graphing in a quadrant system, and operations on sets. Students are not advised to go on to the next math course in the sequence if course grade or outcomes assessment indicates a below-average achievement. Prerequisite: MATH 009 or MATH 015 with ‘C’ grade or better, or placement test score. Telecommunication class.

Section B01V
Instructor: James Dawson, M.S.
Mondays, Wednesdays, Fridays June 7-July 30
2:00-3:50 p.m. Room 516
3 credits $300*

Section B02V
Instructor: Theresa Pham
Mon., Tues., Wed., Thurs. June 7-July 30
3:30-4:50 p.m. Room 515
3 credits $300*
Section B03V
Instructor: Kevin Jones
Mon., Tues., Wed., Thurs.
June 28-August 6
9:00-10:50 a.m.
Room 515
3 credits
$300*

MATH 123 B01V – Math in Modern Society
This survey course provides an opportunity to acquire an appreciation of the nature of mathematics and its relation to other aspects of our culture. The course is rigorous but not rigid and applies mathematics to real-world problems.
Prerequisite: MATH 010/025 with a grade of ‘C’ or better, or CSI placement test score.

Instructor: General Staff
Mon., Tues., Wed., Thurs.
June 7-July 30
10:00-11:20 a.m.
Room 516
3 credits
$300*

MATH 144 B01V – Trigonometry
This course covers right triangle and circular function approaches to trigonometry, graphs of trig functions, trig identities, conditional equations, right and non-right triangle applications of trigonometry, inverse trig functions, trigonometry of complex numbers including DeMoivre’s Theorem, polar coordinates and equations, parametric equations. Students desiring both college algebra and trigonometry should take MATH 147. Credit hours are not granted in both MATH 144 and MATH 147.
Prerequisite: MATH 143 with a grade of ‘C’ or better, CSI placement test score, or permission of instructor.

Instructor: Thomas Atkin
Mon., Tues., Wed., Thurs.
June 7-July 30
1:00-1:50 p.m.
Room 515
2 credits
$200*

PSYCHOLOGY
PSYC 101 B03V – General Psychology
This survey course is an introduction to psychology. Psychology is the scientific study of thinking, emotion, and behavior. This course introduces students to the diverse research areas of psychology such as psychobiology, motivation, learning, cognitive and social processes, and abnormality, emphasizing empirical findings of the discipline.

Instructor: Shilo Smith
Mon., Tues., Wed., Thurs.
May 17-June 24
Room 515
3 credits
$300*

SOCIOLOGY
SOCY 101 B01V – Introduction to Sociology
This course presents the basic concepts, principles, and processes in sociology along with an introduction to material relating to culture, social interaction, institutions and social change.

Instructor: Matthew Reynolds
Mon., Tues., Wed., Thurs.
May 17-June 25
Room 515
3 credits
$300*

NURSING ASSISTANT
NURA S031 B01 – Heartsaver CPR and First Aid
Cardio Pulmonary Resuscitation and the Standard First Aid course are delivered. CPR methods for infants, children, and adults are included.

Instructor: Cheryl Patterson
Monday
June 7
5:00-9:50 p.m.
Room 404
0 credits
$45*
ANIMALS

Basic Dog Obedience
Give your dog a college education! This six-session class will help you develop a positive relationship with your dog as you learn effective training techniques – and your dog will get excellent socialization practice. Instructor Barb Williams will cover basic commands: sit, down, leave it, attention, stay, come, heel, and more. Barb graduated from the Animal Behavior College and trains hunting dogs, search & rescue dogs, and pets. Dogs should be six months or older for the class, and play nicely (no aggressive behavior) with other dogs. Please bring a buckle collar, six-foot lead, and verification of current vaccinations.
Section Code: XHOB 004 BO1
Thursdays • June 17-July 22 • 6:00-7:00 p.m. • Community Campus lawn • Tuition: $120

ART

Art of the Italian High Renaissance
Toward the end of the fifteenth century and into the sixteenth century extraordinary works of painting, architecture and sculpture were created in Italy. The flowering of the arts that had begun about a century before reached a zenith in the art of Leonardo, Raphael and Michelangelo. This course will study the art works of this period, with a particular focus on these three giants of the Italian High Renaissance with art scholar Elaine French. Students will consider the cultural context of the art, as well as its style and iconography.
Section Code: XART 042 BO1
Wednesdays • June 2, 9, 23, 30 (class will not meet on June 16) • 7:00-9:00 p.m. • Room 509
Tuition: $80

Books as Portable Miniatures: Book Art
In this four-session class, artist Mitsuru Brandon will teach students how to create original hand-crafted books, with an emphasis on more portable and sculptural forms of this ancient art form while experimenting with different ideas and images. The class starts with book binding techniques to create numerous book covers. Students will also playfully produce images using wet media methods, stamped print-making and collage paper-making. Also included are various book forms: box, scroll, slip and pop-up. For the grand finale, students will create an advanced Japanese box case to hold handmade papers.
Section code: XART 036 BO1
Tuesdays • July 6-27 • 6:00-8:30 p.m. • Room 815 • Tuition: $90
Color Theory
Learn the language of color in this introductory class. You will explore the relationships of colors on a color wheel and learn what constitutes color harmony. Your guide will be the book *COLOR, A Course in Mastering the Art of Mixing Color* by Betty Edwards (ISBN 1-58542-219-3). Exercises will teach you how to mix colors and achieve maximum expressive qualities from color in your artwork. Local artist and CSI art instructor Nancy Camp will teach you the rules for applying color and how and when to break them.
Section code: XART 099 BO1
Tuesdays and Thursdays • June 8 - 24 • 9:30-11:00 a.m. • Room 815
Tuition: $100 (Plus supplies – email instructor for supplies list: ncamp@csi.edu)

Elements and Principles of Design.
For artists and art lovers this course is for you. In this four-session class you’ll discover what to consider when designing or viewing artworks. All art forms are covered in this four-session class where discussions will focus on numerous examples of art. Instructor Dianne Taylor, holds a Ph.D. in advanced art teaching, as well as an M.F.A. in weaving and B.A. in crafts. As an art history lecturer at the University of Northern Texas for over two decades, she taught the history of crafts as well as introduction to Asian, Mesoamerican, and Western Art. Class size is limited.
Section Code: XART 004 BO1
Wednesdays • June 23-July 14 • 6:30-8:00 p.m. • Room 815 • Tuition: $100

COMMUNICATION

Communication in the Workplace
Research indicates that oral communication skills are the number one factor in promoting employment success – ahead of self-motivation, problem-solving, decision-making, and leadership skills. This four-session class will help you strengthen your ability to communicate effectively in your workplace. Former radio/TV host and CSI Communication Instructor Dayle Ohlau, M.A., will focus on verbal and non-verbal communications with an emphasis on interpersonal and small group dynamics during this lunchtime interactive seminar.
Section Code: XMSC 159 BO1
Wednesdays • June 23-July 7 • 12:00-1:00 p.m. • Room 514 • Tuition: $65

COMPUTERS

Introduction to PowerPoint
Learn how to make captivating presentations that have a WOW factor! In this 4-session class, instructor Christy Kreps will guide you as you discover how to design professional looking presentations that incorporate sounds, images, and graphs. You will also learn how to animate your presentations to make them more interesting to your audience.
Section code: XCMP 165 BO1
July 19-28 • Mondays and Wednesdays • 6:00-8:00 pm • Room 409 • Tuition: $100

Introduction to Digital Photography
This three-night seminar will introduce you to the basics of digital photography. Photographer Craig Wolf from will help get you out of the auto mode and help you start using your camera’s aperture and shutter to take more creative pictures. You will learn compositional techniques and get tips on how to use software to edit and organize your photographs. Bring your digital camera
to class, and be sure to familiarize yourself with it beforehand and review the instruction manual.
Note: This class is better suited for those who use SLR cameras (single lens reflex) than point and shoot versions.

Section Code: XART 001 BO1
July 6-8 • Tuesday, Wednesday, Thursday • 7:00-9:00 p.m. • Room 409 • Tuition: $65

Photoshop and Image Editing
With digital photography, snapping the picture is just the first step. You can continue to craft your snapshots through computer editing programs. This four-session class will help you maximize the potential of your pictures by using Adobe Photoshop. Accomplished photographer Craig Wolf from will guide you through the basics of opening and editing digital image files using Photoshop’s many creative tools.

Section code: XCMP 199 BO1
July 13-15 • Tuesdays, Wednesdays, Thursdays • 7:00-9:00 p.m. • Room 409 • Tuition $65

CURRENT EVENTS

Great Decisions
This lively discussion group is a perennial favorite for inquisitive minds in the Wood River Valley who want to learn and talk about contemporary foreign and domestic issues. The class materials are developed by the Foreign Policy Association, and the class is moderated by F.S. (Tony) Mabbatt, who served diplomatic missions for the U.S. Foreign Service for 23 years. The session topics include: special envoys, Kenya, global crime, U.S. – China relations, global financial crisis, Russia and its neighbors, The Persian Gulf, peace-building, and conflict resolution. Each student will receive a briefing book which is included in the tuition fee.

Section code: XMSC 088 BO1
May 31, June 3-24 • Mondays and Thursdays • 6:30-8:00 p.m.
St. Thomas Episcopal Church • Tuition: $40

HEALTH AND WELLNESS

Beginner Strength Training and Stretching
Enjoy two hours of strength training and stretching every week with CSI science and fitness instructor Kim Fletsch, M.S. This course is designed for beginning exercisers and the mature adult. Each class will focus on both strength training and stretching; two essential components of everyone’s fitness program. Students will learn how to use resistance bands, bars, mats, and light weights for health and wellness. Emphasis will be on safety and long term fitness. This class will encourage students to be strong and flexible throughout the summer. It is an excellent complement for those who enjoy waking and hiking outside, and want to add the other essential components to their fitness regime: strength training and stretching!

Section code: XPED 004 BO1
June 8–July 29 • Tuesdays and Thursdays • 9:30-11:30 a.m. • Room: BCRD Fitness Studio
Tuition: $100

Summer Yoga
Connect with body, mind and spirit on summer evenings with Dayle Ohlau, M.A. in this intermediate yoga class. Dayle is a certified yoga instructor with the Temple of Kriya and a Level III Healing Touch™ practitioner. She has designed this class with a focus on intermediate yoga asanas includ-
ing flow sequences, inversions, and backbends. Students will increase overall flexibility and body strength as well as improve mental awareness and enhance a personal home practice.

**Section Code: XPED 041 BO1**

**Thursdays • July 8–August 12 • 6:00-7:15 p.m. • Room: BCRD Fitness Studio**
**Tuition: $60**

**Women’s Conditioning Class - Walking, Hiking, Aerobics, Strength Training & Stretching**

Enjoy two hours a week of working out with a group of women led by CSI science and physical education instructor **Kim Fluetsch, M.S.** If you need help getting shape here is your chance. Women will meet for motivation and encouragement, twice a week for week eight weeks. Enjoy walking, hiking, aerobic dance, strength training and stretching. No experience needed. This course is designed for women of all abilities and fitness levels. Each class will address the major components of fitness: aerobic exercise, strength training, and stretching. Students will use resistance bands, bars, mats, and light weights. Emphasis will be on safety and long term fitness. This class will motivate you to get active this summer and stay healthy, strong and flexible. Students will be encouraged keep an exercise and food journal allowing them to chart their progress throughout the class. The class will meet both in and outdoors.

**Section code: XPED 037 BO1**

**Tuesdays and Thursdays • June 8–July 29 • 12:00-1:00 p.m.**
**Room: BCRD Fitness Studio/Outdoors • Tuition: $120**

**NATURE AND SCIENCE**

**Birds and Boating in June**

Bird diversity and activity peak around mid-June in the Wood River Valley. Guided by expert birder and science teacher **Larry Barnes**, you’ll visit different habitats in the Wood River Valley by starting in Hailey and then traveling south to Silver Creek Preserve. The class will begin early to catch exciting morning bird behavior and culminate in a lovely two-hour canoe trip through The Nature Conservancy’s Silver Creek Preserve. Bring your binoculars, wear your walking shoes, and pack a lunch. A $5 donation to the Nature Conservancy is requested at the time of the canoe trip. The tour is limited to 10 students.

**Section code: XHOB 011 BO1**

**Saturday • June 19 • 6:30 a.m. to 3:30 p.m. • Meet at Community Campus • Tuition: $55**

**Square Foot Gardening**

Can’t find your green thumb? No worries - local garden enthusiast **Pati Meyer** will teach you how to grow your very own successful garden in only 6” of soil! Pati is a certified Square Foot Gardening teacher, and in only two hours on a summer night, she’ll teach you how to plant and grow veggies and flowers with 80% less space and water, and 95% fewer seeds. This is a great family, and earth friendly activity. Pati guarantees your gardening success!

**Section code: XGDN 001 BO1**

**June 2 • Wednesday • 6:00-8:00 p.m. • Room 404 • Tuition: $50**
COLLEGE FOR KIDS

In the summer months, the CSI Blaine County Center expands its programs to include camps and workshops for schoolchildren. Kids can experience the excitement and fun of learning from experienced teachers in small class settings. **TO REGISTER FOR A COLLEGE FOR KIDS CLASS,** visit the CSI office at the Community Campus in Hailey, or call 788-2033.

HEALTH AND WELLNESS

**Yoga for Kids**

Yoga is an amazing tool that is not just for adults. A yoga practice can help children experience great health, energy, mental clarity, and overall vitality. It increases balance, flexibility, stamina, and poise. Long-time yoga enthusiast and local yoga instructor **Victoria Roper** will introduce kids to this lifetime practice, and show them how fun yoga can be, as they bend, stretch and reach!

**Section code: YPED 021 BO1**

Monday-Thursday • June 21-24 • 9:00-10:30 am • Room BCRD Fitness Studio • Tuition: $65

LANGUAGE

**French Camp 1 (3rd-7th grade)**

Voulez-vous parler français? Come to French Camp and start your French-speaking experience! Students will learn basic vocabulary, how to introduce and talk about themselves, and how to count. Geography and culture of French-speaking countries are also covered. Songs, games, and projects make learning fun! Snacks are provided each day to help provide an appreciation of French cuisine. Please bring a folder and pencil to camp. **Elise Bingham** is a certified French teacher.

**Section code: YLNG 005 BO1**

Monday-Friday • July 26-July 30 • 9:00-11:00 a.m. • Room 512

Tuition: $90 (book and CD’s included)

**French Camp 2 (3rd-7th grade)**

Parlons français! Continuing where Camp I left off, Camp II brings more learning and more fun. Additional vocabulary includes food, colors, and weather. Students learn more phrases and questions

Writing Workshop with Tony Evans

Participants will be encouraged to explore key issues and events in their lives in a creative and supportive atmosphere. Based loosely on the “writing practiced approach” popularized by Natalie Goldberg, a Zen practitioner from Taos, New Mexico, this workshop is geared toward exploration more than exposition. Tony will provide themes each week, based on mythological concepts, and the focus will be based on personal mythology as a memoir. This class is limited to eight students. Students will need to bring their own writing supplies.

**Section code: XMSC 175 BO1**

June 23-July 14 • Wednesdays • 6:30-8:30 p.m. • Room 514 • Tuition: $100
for having conversations. Instructor Elise Bingham will continue her curriculum through songs, games, projects and snacks! Please bring a folder and pencil to camp.

Section code: YLNG 005 BO2  
Monday-Friday • August 2-6 • 9:00-11:00 a.m. • Room 512  
Tuition: $90 (book and CD’s included)

Spanish Camp (3rd-5th graders)

This summer language camp is designed for upper-elementary school children who little or no Spanish language background. The students will focus on language basics, including the alphabet, numbers, and useful conversational phrases. The kids will do lots of activities to build their knowledge through games, art, movement and more. Topics will include favorite activities, good, and individual characteristics. Victoria Roper is a certified Spanish teacher who has lived and traveled extensively in Spanish-speaking countries.

Section code: YLNG 001 BO1  
Monday - Thursday • June 21-24 • 10:45 a.m. to 12:00 p.m. • Room 512 • Tuition: $75

NATURE AND SCIENCE

Ants and Plants with Ann Christensen (2nd-6th graders)

Ann is back with a Wood River Valley summer favorite! Kids should get ready to get dirty in this class in the search for fascinating bugs and plants. They will embark on a series of field trips to explore various natural communities and the creatures that inhabit them. As they visit rivers, forests, ponds, meadows, and sagebrush areas, they will learn about botany, geology, ecology, and more from beloved local naturalist Ann Christensen. This class is a must to introduce children to the wonders of our great outdoors. Space is limited to 10 students. Each child should bring a sack lunch and appropriate outdoor gear each day.

Section code: YSCI 007 BO1  
Monday-Thursday • July 12-15 • 12:00-3:00 p.m. • Meet at Hemingway Elementary  
Tuition: $65

CSI @ CSI (5th-8th graders)

It’s back! Kids, you get to be the detective. You’ll get to go to the scene of an imaginary crime and learn how to problem-solve to close the case. You will learn the proper procedures for collecting evidence and taking documentary photographs as you develop theories for what took place in the “mock” crime scene. Also, you’ll learn how to apprehend (handcuff!) and fingerprint the suspect. Your instructor, Tracy Perreira, works at the crime lab for the Twin Falls Police Department.

Section code: YSCI 005 BO1  
Thursday and Friday • June 9-10 • 9 a.m.- 12 p.m. • Room 404 • $65 (includes materials)

Green Science Camp for Kids

According to Kermit the Frog, it’s not “easy being green.” But nowadays we hear a lot about “going green.” So what does GREEN really mean? In this three-day class, kids will mix, measure, dissect, build and break apart science of photosynthesis in order to discover the essence of green – from plants to chemical reactions, light energy, the environment, and more. This class will be taught by former high school biology teacher Julia Kinsey, M.A.

Session 1 (1st-3rd graders) Section code: YSCI 012 BO1  
June 15-17 • Tuesday - Thursday • 10:00 am – 12:00 p.m. • Room 404 • Tuition: $60

Session 2 (4th-6th graders) Section code: YSCI 012 BO2  
June 15-17 • Tuesday-Thursday • 1:00-3:00 p.m. • Room 404 • Tuition: $60
CSI’s Summer Spanish Institute provides a unique opportunity for adult students to develop their Spanish language skills and to broaden their knowledge of Spanish-speaking cultures using the immersion techniques found in Spanish language schools abroad. Five different levels of academic classes focus on Spanish grammar by teaching speaking, listening, reading, and writing skills. Workshops provide more language practice through culture. With topics as varied as cooking mole verde to exploring the Incan empire to dancing the tango, these hands-on experiences deepen students’ understanding and enjoyment of language acquisition.

Tuition: $350
Three $300 scholarships are available through the CSI Blaine County Center. Individuals must submit a letter of application to the CSI Blaine County Center by May 14. In addition, scholarships are available from the Blaine County School District specifically for Blaine County educators. Contact the Blaine County Education Foundation for more information: www.supportbcef.org or call Heather Crocker at 578-5449 or email hcrocker@blaineschools.org.

College Credit:
Two lower division college credits are available through the College of Southern Idaho for an additional $60 fee. Two upper division college credits are available through Idaho State University for an additional $100 fee. Students register for college credit on the first morning of the Spanish Institute (June 14). To receive credits, students must attend all classes and submit a portfolio of work at the end of the week.

Go online to www.csi.edu/blaine to find:
• a description of the language class levels
• a detailed schedule of the week
• the registration form

Call the CSI office for more information: 788-2033.
**ARTIST IN RESIDENCE**

**Fundamentals of Sculpture**

Join professional sculptor and artist Mark Stasz for hands-on instruction in creating metal and stone sculpture in a studio setting. Learn the basic elements of designing, welding, grinding, sandblasting, rock carving and surface finishing. Students will benefit from a combination of lectures and hands-on training under the guidance of a master sculptor. Studio time and materials are included in the class fee. Mark Stasz is a nationally recognized artist with commissioned sculptures in private, corporate, and public collections nationwide. For more than two decades Stasz has been creating his signature works in metal and stone for exhibition in renowned art galleries and select public art installations. His studio is located in Bellevue, Idaho. To view a comprehensive selection of his work, please visit: www.staszsculpture.com

**Section code: XART 034 BO1**

**Tuesdays and Thursdays • June 15-July 8**

**Mandatory studio introduction class on Tuesday, June 8, 4-5:00 p.m.**

Tuition: $425

---

**GED GENERAL EDUCATION DEVELOPMENT**

G.E.D. is an adult education program which enables the student to achieve the equivalent of a high school diploma. A self-study book, online classes, and classroom instruction are available.

For more information, contact Janice Reutlinger at HaileyABE@csi.edu or 788-2033, or contact Julie Jones at 1-800-680-0274 x6534.

---

**CAREER WORKSHOP DAY**

**Thursday, June 10**

**Career Exploration Workshop**

9:00 a.m.-11:45 p.m.

Generate job possibilities by assessing your interests and skills. You will work with a facilitator and use online resources to explore potential jobs. You will also investigate your top career choices to find out more about the training required, pay range, employment outlook, and more.

**Financial Literacy Workshop**

12:00-1:45 p.m. BROWN BAG LUNCH

Make your career goals financially realistic. Learn how to track and re-pay your loans while developing, managing and maintaining a budget. Protect yourself against identity theft and find out the process for accessing and reviewing your credit reports.

**Successful Job-Seeking Skills Workshop**

2:00-4:00 p.m.

The job search process is much less intimidating when you are prepared. This workshop will teach you how to prepare strong applications, cover letters, and resumés. You will also learn what to expect during an interview and how to present yourself well.

Presented by the CSI Career Counseling Center and Financial Aid office, these workshops are free, but you must sign-up in advance. Call 788-2033.
HOW TO REGISTER FOR CLASSES

SUMMER ACADEMIC CLASSES
To register for an academic class as a new or returning student, visit the CSI website at www.csi.edu. Complete an application for admission and a course registration form online.

SUMMER ENRICHMENT CLASSES
To register for an enrichment class or a College for Kids class, visit the CSI office at the Community Campus in Hailey, or call 788-2033 to register over the phone.

IF YOU'RE THINKING ABOUT STARTING SCHOOL THIS FALL...  

1. Go to www.csi.edu and submit the application for admission online. You will receive your CSI identification number within 48 hours by e-mail.

2. Call the Blaine County office and make an appointment to take the college placement test and to meet with an academic advisor.

3. Register for classes online and fill out your certificate of residency form. Print out and bring your completed residency form to our office.

To apply for a Blaine County scholarship for fall semester, the application deadline is July 9. Pick up an application form in the Blaine County Center office.

Visit the CSI Blaine County Center. We’ll help you get started, and we’ll help you keep going!
