Welcome to the CSI North Side Center!

Dear Friends,

One dictionary definition of learning is “gaining knowledge, understanding or skill by study, instruction or experience.” The College of Southern Idaho provides a multitude of opportunities to do just that, no matter your age or where your interests lie.

Here at the North Side Center, you can begin or continue your college experience close to home, saving time and money, by enrolling in one or more of over twenty academic courses offered in Gooding County. In our community education classes, you can learn new skills and expand your knowledge and understanding in areas ranging from wine appreciation, photography, quilting, computers and much, much more. We are also offering a new interactive Spanish class for kids that will be both fun and educational.

In addition, we’re excited to offer free workshops on advising and financial aid, Compass testing and career exploration as well as Adult Basic Education classes on site.

With all of the opportunities available, there truly is something for everyone at the North Side Center!
